## Apeman m4 projector manual

1 2 3 4 5 6 7 7 9 10 11 12 14 15 16 17 20 21 22 23 25 26 28 Colour illustration: Mini Beamer measures 98 \* 98 mm and weighs 213 g. Ideal for dark, home, parties and camping. Not recommended for commercial presentations. Advanced DLP technology delivers 70% brighter and 50% sharper images than LCD devices, significantly reducing the effects of food blur. It supports Full HD 1080p with a 1000:1 contrast ratio, 854\*480 native resolution, and a projection surface up to 100 inches. Transform your living room into a home theater for families and friends. With the mini projector, you can complete the entire 2-2.5 hour movie after uploading. Flexible use anywhere without power. It can also be used as an energy bank to charge an exhausted cell phone in an emergency. Long lens life up to 45,000 hours. If you use it for three hours a day, it's 40 years! The beamer is easy to connect via HDMI port to laptop, DVD, tablet, PS3/4, smartphone, etc. Use different entertainment resources on any number of devices and project media onto your wall so that they can be viewed by anyone. It's super quiet. It comes with a stand with a fully functional 360° rotation and a fixed stand. Question 1: How big is the APEMAN mini projector? A: Hello my friend, this is a pocket sized mini projector. Size 3.86x3.86x0.85 inches and light 0.44 pounds. You can carry it everywhere out there. Enjoying a camping movie evening with family and friends. If you have any other questions, please contact official service email:support@apemans.comQ2: Can this be hooked up to an external sound project? A: Dear friend, thank you for asking. Yes, you can connect to 3.5mm audio devices. If you have any other questions, please do not hesitate to contact us via support@apemans.comQ3: How to mount the projector on your iPhone x?A: Hello friend, thank you for asking. From the Apple Store, you'll need to use apple lightning for an HDMI-certified MFI adapter. Or you can use the Mira cast/Dongle. If you have any other questions, please do not hesitate to contact the official service e-mail:support@apemans.comQ4: How to connect the projectorandriod phones? A: Hi my friend, thanks for asking. To connect to an Android phone/tablet: You need to use a Mira cast/dongle (make sure your phone supports screen mirroring). If you have any other questions, please contact official service email:support@apemans.comQ5: Is it suitable for a USB drive? A: Hello friend, thanks for asking. The projector supports HDMI input, USB output. The USB port is used to charge the device (Amazon Fire Stick, Chromecast, etc.) or as output from the power bank. It's not for the USB drive. If you have any other please do not hesitate to contact us support@apemans.com 1 2 3 4 5 6 7 8 9 10 11 12 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 28
